ADVANCE NOTICE!

Psychotherapy Research Conference

24th – 27th March 2010

The Annual Meeting of the Society for Psychotherapy Research (UK) is a lively coming together of researchers and practitioners from a wide range of psychotherapy settings in a stunning location.

SPR UK is the UK chapter of SPR International and as such draws from and contributes to an impressive range of international psychotherapy research.

At the annual conference:

- Diverse theoretical perspectives and research methods are represented
- New and exciting research findings are disseminated in the context of open and energetic discussion and critical debate of topical issues in psychotherapy
- There is a genuine ethos of facilitating learning about research in psychotherapy
- New researchers and research-fearful clinicians as well as leaders in the field are welcomed
- A keynote address is given by a distinguished international expert in Psychotherapy Research

The conference programme includes plenary paper sessions, workshops, poster presentations and open discussions. There is ample opportunity for networking and for developing research collaborations.

A **call for papers** and **further details** will be issued in **September 2009**.
Decisions on submissions will be communicated by **9th October**.
Early-bird discounts will apply to registrations before **31st October**.

The Annual General Meeting of SPR (UK) will take place during the conference. Please direct any queries to the conference administrator, Carolyn Beet, carolyn.beet@obmh.nhs.uk
